## Art of power

With sophisticated style and exceptional performance, the HP ENVY All-in-One transforms your work space into a gallery space. It combines sleek, modern design with cutting-edge power for a machine you won't just want to work on – you'll want to show off.

### Artful style

Picture this: a 68.6 cm (27") diagonal floating glass Micro Edge display balanced perfectly on a thin metal stand. This stunning work of art brings modern grace and timeless elegance to your home.

### Standout performance

With unique features like a pop-up privacy camera and mic, Intel® Core™ i5/i7 processor<sup>1</sup>, and up to 16 GB of RAM, you can safely stream, play, and work beyond all expectations.

### Front-row entertainment

With a QHD<sup>2</sup> and 4K<sup>3</sup> on select models, this touch screen display brings in the ultimate cinematic experience. Paired with HP quad speakers and audio by Bang & Olufsen, your home is at the forefront of entertainment.

<sup>1</sup> Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

## Featuring

### Quad front-facing speakers

Pump up the volume to your favorite music, movie or game. When your audio is directed towards you, nothing comes between you and your entertainment.

### Sound bar for incredible audio

Embedded in the sound bar, front-firing quad speakers direct sound toward you at a 45-degree angle for clear, loud audio. And the intuitive touch controls of the audio dial allow you to easily adjust the volume.

### Technicolor Color Certified

Watch movies in true-to-life color on a device certified to meet the same strict standards for color precision as those used in Hollywood.

### Floating glass display

The ultra-thin display, perfectly balanced on the nearly invisible stand, uses this visual tension to create the illusion of weightlessness. The clean, contemporary design hides the cords to complete the floating-glass effect.

### HP TrueVision HD IR Camera

The infrared sensor gives you the added security of Windows Hello, for a safer way to log in to your computer. And get vibrant clarity when you're video chatting, even in low light.<sup>18</sup>

### USB-C™ Thunderbolt™

Power your device, connect an external display, or transfer data at a blazing 40 Gb/s all from one impressive USB-C™ Thunderbolt™ port. And it's reversible, so you never have to worry about plugging in upside down.<sup>19</sup>

### USB 3.0 connector

With the world's most popular USB connection, you can easily connect any of your existing USB devices and experience data transfer speeds ten times faster than USB 2.0.
